

FOLIA<sup>®</sup> ENTRY-LEVEL CABINET LINE

BEECH TREE WOODWORKS

 What is FOLIA<sup>®</sup>?

FOLIA<sup>®</sup> is a high-quality, entry-level cabinet line developed for clients who are on a tighter budget than would allow for the full custom experience that **BEECH TREE WOODWORKS** is known for. We have developed a system to help guide these clients thru the process by defining the parameters of the custom elements. This system, in turn, streamlines production and delivery of the cabinets while maintaining the use of high-quality materials, un-matched craftsmanship and ensures a competitive price point.

## FOLIA® features...

- Quality domestic FSC® Columbia Forest Product Plywood
- Custom box widths, heights and depths
- Slab style doors, drawer fronts and panels
- Blum Legra drawer system w/ full extension and soft close
- Blum 3-dim. adjustment European concealed hinges
- 2-bin pullout for trash/recycling convenience hardware
- Low VOC clear polyurethane finish in 10 degree sheen
- Choice of inset OR overlay style cabinets
- Independent plinths with metal adjustable feet
- Choice of materials from limited library
- Two hours of consultation in our showroom
- One set of redlines and one final drawing revision
- Inventory checklist, plans and install guide with delivery
- Limited lifetime warranty

## FOLIA® does not include...

- Horizontal grain
- Special attention given to grain graphic matching
- Anything beyond a 2-hour consultation
- Onsite measurements outside a 10-mile radius
- Specialty design elements or convenience hardware
- Painted or stained cabinetry
